

## **Enterprise Project Director Senior**

**Summary:** The Strategic Technology Solutions (STS) division within the Department of Finance & Administration is implementing a new IT delivery model for its customer agencies in a phased approach. The Enterprise IT Transformation initiative involves building a highly qualified and experienced organization to support our agencies in four business domains through a shared resource delivery model. Several critical resources are being recruited to build this delivery model to improve our IT customer service, improve strategic planning with a focus on enterprise solutions and provide improved solution delivery success rates. The Enterprise Project Director Senior will provide guidance at a statewide (enterprise) level and be responsible for oversight and management of medium-large enterprise application and infrastructure projects and complex change management efforts. In addition, the Enterprise Project Director Senior will have a number of Project Managers reporting directly to him/her. In this role he/she will be responsible for leading, directing, coaching a team of Project Managers within the PMO. Projects will require significant governance responsibilities involving multiple departments. The Enterprise Project Director Senior performs work at the enterprise level and across the departments within the STS. This position will report to the PMO Director in the CRDR business domain. Duties will include project management (contract management, project management, organizational change management, vendor relationships, recruiting, team building, resource management, risk/issue resolution), leadership (direct and manage, coach and mentor team of project managers) and implementing PMO strategy.

### **Required Experience:**

- Requires an extensive background in managing large, complex projects that cross multiple business units with outstanding interpersonal and communication skills.
- Demonstrated leadership and experience with a focus on team development.
- Excellent communication skills with experience working with all levels in an organization.
- Dedication to customer service focused delivery of IT solutions.
- Experience juggling multiple goals, changing priorities and deadlines.
- Strong interpersonal skills with all levels of personnel and demonstrate the ability to motivate employees/teams to apply skills and techniques to solve dynamic problems.
- Effectively develop and deliver formal presentations to project sponsors and/or business process owners. Build consensus and support throughout the project lifecycle.
- Must have a bachelor's degree.

### **Preferred Experience:**

- 10+ years large, complex IT development and implementation experience.
- Experience working in the government sector (local, state, or federal).
- Strong IT technical background.
- Experience as software developer or development manager.
- Experience working with Agile software development methods.
- Certification in one of the following: Project Management Professional (PMP), Six Sigma, LEAN, Business Process Management.
